

Hojas Tabulares de 4 columnas pdf, as you may have guessed from the title, is about a four-column spreadsheet with Spanish words and their English translations. You might be wondering why I would write something like this... But believe me, this website is worth checking out. It's not just great for those who know Spanish as a second language - it's a good resource for native speakers too! Read more by clicking on "Learn More" or download the sheet by clicking on "Download". Leave any questions in the comments section below.

Download this sheet by clicking on the link below. My personal favorite is the "faculties" section, since I'm studying for my bachelors in Criminology. The sheet includes words commonly used in classrooms regarding class times, etc. As well, if you are looking for a fun way to practice your Spanish skills with friends or family, you can use this sheet as a way to play their own version of "Taboo". I think one of the best things about this website is that there are many different sheets - something for everyone!

The instructions to play Taboo are simple: You have to get your teammates to guess the word on the card by giving them hints. You can't use any part of the word itself, you have to use hints with related words. The team closest to guessing the word wins!
